

REDBEARD by TANJU BABACAN FALL21 MIND'DALA

Redbeard has launched Mind'dala, Fall 2021 collection, as a short fashion movie at Fashion Week Istanbul. Designer Tanju Babacan shared his thoughts on mandala and the collection as; "Mandala is like the future I have never known. Even if it feels like it goes coincidentally, every line you draw builds the whole. It's like a tornado of sensations. My desire with this collection is beyond patterns though. I imagine my designs will bring the joy of mandala on fashion stage and wardrobes."

The fabrics he used in collection are crepe, organza, tulle, chiffon, knitwear, polar, faux leather, sequin, cashmere, taffeta and oplin.

As always Redbeard brings some couture techniques into ready to wear. Designer Tanju Babacan benefited by print, crush, pleat, embroidery, patchwork and quilt techniques to create upcoming collection.
