

'About' Collection by Mehmet Emirođlu

Turkish designer Mehmet Emirođlu prepared his FALL 2021 'About' collection inspired by strong women who despite everything believe in freedom and determine their life motto through their own truths. The collection consists of 24 looks that support colors that nourish each other with contrasts and fibers that are difficult to get volume with their search for different forms.

The designer aimed to create pieces suitable for daily use while decorating masculine cuts with feminine touches and feminine cuts with masculine accessories in the collection. Emirođlu symbolizes dynamism with sax, power black, fearlessness with mustard and mystery with coral in her collection 'about'.
